NEW ELECTRONIC WASTE RECEIVAL SYSTEM

Instructions for use

1 **Connect your discharge hose** to the discharge connection point.

2 **To open the discharge valve** touch your key fob to the reader.

3 **To discharge waste** press the button that relates to your waste type.

The waste type, volume, date and time will be recorded against your Unitywater account.

4 **To close the discharge valve** press the OFF button.

If you do not press the 'OFF' button, the valve will remain open allowing others to discharge against your account.

5 **Hose down any spills** to leave the site clean and safe for others.

PLEASE NOTE:
You no longer need to complete Unitywater dockets.

Unitywater

Serving you today, investing in tomorrow.
